Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 37-50 are rejected under 35 U.S.C. 102(b) as being anticipated by Gordon (US 4889120). In col. 5 lines 41-65 Gordon discloses a device for treatment of substrates, comprising a radiofrequency power supply; an energy absorbing species and a means for inductively applying the RF energy to the substrate.
